## **Five Stars! The Laurels of Milford Earns Quality Measures Recognition from CMS**

*Local skilled nursing facility earns honor from CMS for resident care*

**MILFORD, Ohio** – The Laurels of Milford, a skilled nursing and rehabilitation center operated by Laurel Health Care Company, has been recognized as a five-star performer in *Quality Measures* by the Centers of Medicare & Medicaid Services (CMS) in the most recent set of data released through its Five-Star Quality Rating System.

The quality measures rating, which includes data on 17 different physical and clinical measures for skilled nursing facility residents and offers information about how well nursing homes are caring for their guests' physical and clinical needs, is one of three broad categories reviewed within the CMS Five-Star Quality Rating System, a tool that helps consumers select and compare skilled nursing care centers. Nursing homes receiving five stars are considered to offer much above average quality services, while nursing homes with one star are considered to have quality much below average.

"The Laurels of Milford is thrilled to be named a five-star facility in quality measures by CMS," administrator Lori Byrom said. "Quality measures is perhaps the most important category on which skilled nursing facilities are measured, as it accounts for how well we are taking care of our guests' needs while they are in our care. Our associates continually show a commitment to pursuing high standards of care and service and we are happy to see that their hard work has been recognized."
