Five Stars! The Laurels of Gahanna Earns Quality Measures Recognition from CMS

Local skilled nursing facility earns honor from CMS for resident care

GAHANNA, Ohio – The Laurels of Gahanna, a skilled nursing and rehabilitation center operated by Laurel Health Care Company, has been recognized as a five-star performer in *Quality Measures* by the Centers for Medicare & Medicaid Services (CMS) in the most recent set of data released through its Five-Star Quality Rating System.

The quality measures rating, which includes data on 17 different physical and clinical measures for skilled nursing facility residents and offers information about how well nursing homes are caring for their residents' physical and clinical needs, is one of three broad categories reviewed within the CMS Five-Star Quality Rating System, a tool that helps consumers select and compare skilled nursing care centers. Nursing homes receiving five stars are considered to offer much above average quality services.

"The Laurels of Gahanna is thrilled to be named a five-star facility in quality measures by CMS," administrator Stefanie Hayes said. "Quality measures is perhaps the most important category on which skilled nursing facilities are measured, as it accounts for how well we are taking care of our residents' needs while they are in our care. Our associates continually show a commitment to pursuing high standards of care and service, and we are happy to see their hard work has been recognized."
