Michelle Castillo Named Administrator at The Laurels of Hudsonville

With over 20 years of experience in the industry, Castillo is well prepared for new role

HUDSONVILLE, Mich. – The Laurels of Hudsonville, a skilled nursing facility operated by Laurel Health Care Company, is pleased to announce Michelle Castillo as its new administrator. A familiar face at The Laurels, Castillo has more than 20 years of experience with the company having previously served as a staff therapist and director of rehabilitation services.

As administrator at The Laurels of Hudsonville, Castillo is responsible for day-to-day operations of the facility. On top of managing a staff of approximately 130 and ensuring the comfort and care of guests, Castillo must direct financial proceedings to stay within the limits of the annual budget, maintain a high occupancy rate and work to keep The Laurels compliant with federal, state and local regulations.

“The Laurels of Hudsonville has been my home away from home for over 20 years,” Castillo said.

“Many of the associates I work with have been here for years and strong bonds have been established. I hope to continue to lead this great team in a positive direction and overall make this an amazing experience for both our guests and our dedicated associates who work every day to create a comfortable living environment.”

Castillo received her administrator credentials and license from Michigan State University in 2017 and attended Grand Valley State University and Grand Rapids Community College where she studied occupational therapy. Prior to joining The Laurels in 1998, she worked as a contract therapist for several local companies.
