

THE LAURELS OF WILLOW CREEK

A Skilled Nursing and Rehabilitation Center

The Laurels of Willow Creek hosted its annual Rehab Reunion on October 3. It was an evening full of fun and great conversation as former guests and their families visited and shared life updates with staff and fellow rehab graduates. Attendees enjoyed a delicious buffet featuring a roast prepared by dietary aide Annie Fowlkes and musical entertainment that included a surprise karaoke performance by administrator Tyler Mackall.

“It’s so great for our former guests to have this kind of support system and be able come back and share their experiences with others who have gone through the rehab program and are also readjusting to life outside of our facility,” Mackall said. “It’s also tremendously rewarding for our therapists and nurses to see so many of their former patients doing so well – it reaffirms the work they do every day.”
